Ma'am:

Greetings!

Every year, on 14th of June, countries around the world celebrate World Blood Donor Day. The event serves to thank voluntary, unpaid blood donors for their life-saving gifts of blood and to raise awareness of the need for regular blood donations to ensure the quality, safety and availability of blood and blood products for patients in need.

In this regards, the college needs to participate international activities as our extension services rendered to the community. Thus, the undersigned would like to request your office to host the college activity in partnership with the Philippine Red Cross. This activity will serve as an international community extension service of your institute.

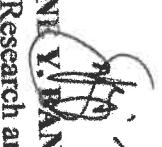

Hoping for your genuine support.

Thank you and have a blessed day!

Very truly yours,

NARRATIVE REPORT

The Gov. Alfonso D. Tan College, Medical and Dental Services conducted its Community Extension Program with the theme WORLD BLOOD DONOR DAY for the first semester of the academic year 2018-2019 last June 14, 2018 at GADTC Lobby.

It was privilege for the Medical and dental services department to conduct this community extension program in cooperation of Philippine Red Cross Tangub Chapter and celebrate WORLD BLOOD DONOR DAY. The event serves to thank voluntary, unpaid blood donors for their life-saving gifts of blood and to raise awareness of the need for regular blood donations to ensure the quality, safety and availability of blood and blood products for patients in need. The midwifery students conducted the vital sign taking, and health teaching for those faculty, staff and students who want as blood donor.

The activity was very successful and productive. It was a blast!

Looking forward for another successful and productive Community Extension Program for the following years!.
