11 September 2019 Luxe Hotel, Lantekai, Cagayan de Oro City

Minutes from Open Forum of the Social Sector Presentation

Comments on Health

First to give comments on the presentation is from the Department of Health Region X Assistant Regional Director, Dr David Mendoza. He initially relates the needs of medical personnel of the City as the plan of the Misamis Occidental 2nd District Representative Hon. Henry S. Oaminal and Governor Atty. Philip T. Tan (former Tangub City Mayor) on the improvement of hospitals amounting to 20 Million in 2020.

DOH X will try requesting the Congress to inset the Construction of Barangay Health Stations (BHS) including the equipment in all barangays in Tangub. With regards to infrastructure, there is no BHS in the proposal of Congressman Oaminal. There will be equipment to be provided for Doctor Mana D. Tan Memorial Hospital (LMDTMH) for 2020 and one concern that needs to be prioritized is the availability of ultrasound for the hospital.

He inquired why wound as the second cause of morbidity of the city and Dr. Jance Bete immediately responded that since the City provides free Tetanus Toxoid, many residents and even from other municipalities avails the program. Dr. Mendoza replied that the CHO should disaggregate their records of patients outside the city.

Dr. Mendoza also commented on the of conduct water sampling and analysis. Dr. Bete explained to Dr. Mendoza water samples are brought to Oroquieta City where the only Water Sampling Machine for the whole province was available and processed samples every Tuesday only. These cause the delayed release of the analysis results for the monthly water sampling conducted by the CHO on the water refilling stations, hospitals, schools and other attended request for water analysis. Thus, the CHO proposed the procurement of Water Sampling Machine to DOH X for possible funding to fast tract processing of resulting that will cater the inter local water analysis.

Dr. Mendoza suggested to specifically include in the Annual Investment Program (AIP) for Health the procurement of the machine, number of BHS, personnel and different equipment needed which will serve as reference for the funding agencies. He added that all required manpower, infrastructure and equipment should be reflected in the AIP for 2020.

Planning Chief Leticia Dolores II Abao put emphasized that health centers were reported as prioritized as one of the issues and needs by the city. As per mentioned by Dr. Mendoza on the plan to improve hospitals, she informed the body that there is TRC in Tangub for 2020 amounting 10.25 Million to be downloaded to LGU Tangub City from DOH X. We supported the suggestion of Dr. Mendoza that it is better to identify the needed BHS in ELJA document for easy identification and costing of PPA's. It should indicate the counterparts of the LGU and DOH X. The DOH X can provide the infrastructure and the corresponding equipment costing 1.2 Million for a small Barangay Health Center (BHC), and approximately around 1.7 Million for bigger BHC. She shared that recently the Regional Development Council X (RDC X) passed the approved HFEPM Manual to be considered and implemented in all LGUs in Region X. She added that projects are not implemented really which is the most common problem encountered by the department.

Further, she said that if the LGU will proposed project based from the priority, it must be taken into consideration the land title or Deed of Donation the LGU's availability of providing the necessary manpower for the facility, maintenance of the building and the equipment provided by DOH-X once the facility is operational if the LGU is requesting for equipment. DOH-X will provide fully with more specific equipment for health center, birthing clinic and hospital, however, DOH-X will ensure that the LGU should also provide the supplies.

City Mayor Dr. Jennifer Wee Tan raised a concern to DOH-X related to the Rural Health Units (RHUs) problems. She emphasized that before she became the Mayor of Tangub, RHUs were constructed in some barangays in the city. However, based from the report of the Barangay Chairmen and the City Engineer Leah J. Satomas, there was no courtesy call made from DOH-X and the part of the contractor to the LGU, no Zoning and Building Permits applied, construction went on even without having necessary permits, and Barangay Chairmen were even forced by the winning contractor to sign documents. Further, she added that as per random inspection of Engr. Leah Satomas to the RHUs, it found out not compliant with the plan specifications. The LGU should also be informed of the projects for the city so the contractor can erect the facilities based from the prepared site development plan.

In terms of personnel for the facilities, Mayor Tan said that the LGU lacked of manpower for the facilities but if the Mandanas Law will be passed, the LGU is very much willing to implement the law.

ARD David Mendoza responded to the concerns raised by Mayor Tan with the Construction of RHUs in Tangub. He said that DOH-X requested the DOH National Office to have external validation of the projects in order to avoid biases. As to the permit documents for the projects, they were surprised that before they lay over the construction, the contractor was able to comply with the required permits. Mayor Tan replied to rechecked the documents submitted since as per record there was no permits applied for five projects located in the city. This is enough ground for the city to blacklist the contractor.

The PMC Chair, Mrs. Tessie Lomanta added to Mayor Tan's reply that the City Project Monitoring Committee (CPMC) inspects national and local funded projects regardless of the source of fund, however, they never had inspection on Barangay Health Stations under the funds of DOH-X.

Planning Chief Abao and Dr. Mendoza pointed out the importance of coordination with LGU and they ensure to involve the LGU prior and during the Bidding process.

Comments/Suggestions/Reactions on Education:

The TESDA Specialist Ms. Honey Annalou Donio commented on the issue raised regarding the National Certification and TESDA to give discount on Assessment Fees. She made clarification on the assessment for Senior High because it should be a full package with DepEd. However, if assessment fees are not included in the package, the concern will be raised to the TESDA-X Regional Director to source out solutions about the fees. On the other hand, based on record there are three (3) registered Training Providers in Tangub: GADTC, Our Lady of Triumph (OLT), and the farm school "The Hoyohoy". In the concern of DepEd that students need to travel far to take the assessment for National Certification, TESDA provided a short term solution. For the meantime, since Our Lady of Triumph had their own equipment, the LGU may request TESDA-X to arrange the equipment be available in the conduct of assessment in the training institution so the student need not to travel far. But in long-term solution, she encourages the two (2) colleges to apply more programs and the later on the training provider can also apply for Assessment Center.

Ma'am Donio also shared to the body the scholarship programs offered by TESDA. Among are the Training for Works Scholarship Program, Special Training for Employment Program, Private Education for Student Financial Assistance, and Universal Access for Quality Tertiary Education (New). She emphasized also that only those SUCs and LUCs registered in TESDA are prioritized. Since GADTC is a registered training provider and if they had more programs, TESDA could provide more scholarship slots for the benefits of the Tangubians. Before she ends, she invites the colleges to add-on more program registration for the Tangubians.

Mayor Tan asked the two (2) colleges to comment on the matters presented by TESDA Specialist Ms. Honey Aranabu Fugno

Mr. Ruelly Taatacaula of NMSC-ST commented that up to date the college is proposing two (2) program for TESDA, the Automotive and Electrical and the status is now for validation by provincial TESDA. The college is also preparing documents for other programs like Bread & Pastry, Cookery and LRMO. Mr. Taatacaula did mention also the long term plan of NMSC-ST is to be the technology center where they can accommodate the training center and become an Assessment Training Center for the programs needed earlier. He hopes to achieve this goal in 2-3 years time and gearing towards the scholarship offered by TESDA to better improve their service.

The GADTC Vice President for Administration, Ma'am Bellafior Fernandez cited Security Services program applied to TESDA if the college would be able to comply with the requirements but still GADTC is still working on Bookkeeping and Midwifery

Mayor Tan challenged the two (2) institutions to come up with more programs. She suggested to include in ELJA Proposal if there are needed equipment to be an Assessment Training Center because the LGU can find National Agencies to fund the equipment. She also reminds TESDA on ease of doing business transactions. Lastly, she addressed to the Provincial Planning Officers present to ensure that in every District there should be PPAs to cater the needs of the youth. She elaborated that if the youths will be going to get NC Certifications, many of the students cannot afford the transportation and allowances. She also encouraged the Provincial Planning Officers, to include in their plan to provide assistance to identified government institutions for the two (2) districts to come up with registered TESDA training provider. She added that being in the government sector, we must support government institutions offering and/or opening training and assessment center. Mayor Tan committed to help GADTC and NMSC as training providers located in city and also seek Provincial Planning to include the same in their plans

At this juncture, the Emcee Dr. Mancalle Nueva proceeded with the open forum with Mr. Edgar Figes as the moderator.

The first to ask was Dr. Jose Pantoja where he asked the status of the Birthing Clinic. Dr. Janice Biele answered that in previous years, they are not required by DOH-X with the license to Operate. It was in this year that DOH-X together with PhilHealth required to have the DOH license to be accredited with PhilHealth. As an update, the licensing is still on-going though the building from DOH-X did not pass their division licensing but the LGU complies the requirements asked by the DOH-X Licensing Division. Dr. Biele mentioned that she compiled the infra requirements and now still working with the documents and targeted to have validated and to be inspected by first week of October 2019

Mayor Tan inserted her comment before Dr. Pantoja open his 2nd question and said to DOH-X to cut down their bureaucracy. A DOH-X project is given to LGU but it did not pass their own licensing requirements. Mayor Tan then asked DOH-X to comment on this.

Planning Chief Leticia Dolores II Abao replied that before there was really a discrepancy in the RLEP and HEEP. Just recently, it was harmonized, however, she said, there are still some issues in that area that DOH-X is facing.

Mayor Tan appreciate the presence DOH-X where they be able to hear our problem such might also be present to other LGUs. She also highlighted the problem on DILG to have harmonized talk with DOH

Dr. Jose Pantoja raised his other concern to Dr. Evelyn Campecio, the DMCTMH OIC-Chief of Hospital. The following concerns are the drainage, water problem, manpower, training of professionals, and updates of newly constructed building. Ma'am Campecio answered that they are still waiting for the DOH-X to respond on their letter for action. She also mentioned that what is presented in the slide are only the major problem and other concerns were solved by Gov. Philip Tan in their project on improvement of 5 Hospitals in the province. Dr. Biele added that during the transition of Gov. Tan, they had a converstator with the Chief of Hospital with DOH-X and agreed that they will reorganize the staffing especially the standard medical staffs. She also supported Ma'am Campecio on sufficient manpower of the hospital based on the

1862. — *On the 27th of January, 1862, the author, with his wife and two sons, left New York for the South, to witness the progress of the war, and to observe the condition of the slaves. They were received with a cordial welcome by the Southern people, and were enabled to witness the progress of the war, and to observe the condition of the slaves.*

Thus, Mairi's fieldwork highlighted the importance of the family, particularly the wife, in the lives of the women. She found that the women were more likely to be involved in the family business than the men, and that they were more likely to be involved in the community. She also found that the women were more likely to be involved in the community than the men.

The General Manager of Tampa City Water Dept., Frank P. Jagger, has organized a series of 100-hour TESDA courses on Pipefitting and Layout, *Engineering, Design, Construction, Operation, and Maintenance of Water and Sewer Systems*.

Dr. David Mendoza of DOTT & inquired on the availability of the 2nd level BLS training for a driver who needs to undergo BLS Training where the CHC refuses to do so. However, PHRC declines to become according to them those individuals who are not currently there are still waiting for other individuals to do the 2nd training. In regards to the driver who needs to do the 2nd level BLS training, PHRC suggests to Dr. Mendoza to send request to DOTT & Provincial Office because they have 2nd level BLS training free for both hospital and City Health Officers.

Eng. Joel Asilero also raised his support of the city having water sampling sites, especially on the fast track its procurement so that the ICMW can immediately provide necessary quality

Dr. Angelina B. Buaron of DepEd X commented on the low performance in the National Assessment Test (NAT). She explained that in the previous years it was more on context-based, i.e., it's easier. Since 2015-2017 the NAT was focused on 21st Century Skills in which the students are to be ready for the 21st century. She researched from the Regional Monitoring and Examination Assessment where there are many factors that affect the performance of the students such as the ecosystem, absence of materials, 104 teachers commented that the learners based on PHL in Test results that shows lot of students were not ready for the test.

Mayor Tan addressed to the Department Heads to free the mind for you to be able to make more room for said not to take extracurricular activities as disturbance to learning but taking it as a venue that can give different competencies for the students.

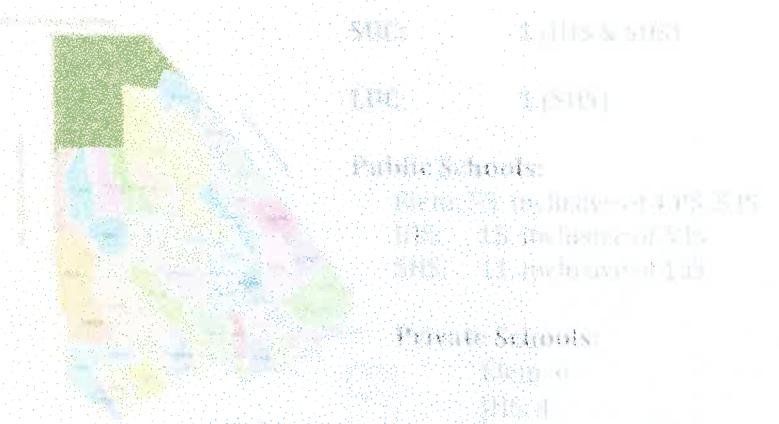

With no other comments raised, the open forum ended for Social Sector.

Sectoral Goal

To make Tangub City a learning center for skills, entrepreneurship, innovation, technology, sports, culture and arts in Northwestern Mindanao.

ISSUES & CONCERNs

Basic Education

Low performance in the National Achievement Test (NAT)

PLANS/PROGRAMS/ ACTIVITIES

- DepEd to conduct Training on Formulation of NAI patterned Questions to Teachers
- Conduct of pre-NAT during second grading sponsored by LGU
- Capacity Development of Teachers in Interpretive Culture of Appreciation in all subjects
- Revisit and revise ordinance on Tangub Rewards
- Conduct training on personality development for teachers
- Create an oversight committee that measures the results of Tangub Rewards
- Contextualization, unpacking and merging of competencies and materials for distribution to the schools
- Conduct Ongoing legal research on NAI results
- Conduct pocket meeting regarding Tangub Rewards

ISSUES & CONCERNs

PLANS/PROGRAMS/ ACTIVITIES

Personnel Development

- Conduct recollection and wellness activities

Unavailability of Public Library

- Construction of Public Library Building and facilities

Ownership of DepEd school sites

- Execute of Deed of Conveyance and/or Usufruct Agreement

Limited space for infrastructure development in Brgy. 3 ES

- Acquire new and/or expansion of the school site

SHS learners' capacity to pay NC certification fee

- TESDA to give discount to SHS learners

Access to training venues

- Execute MOA between LGU and DepEd for the usage of LGU facilities for free

Unavailability of SPED equipment and facilities

- Construction of SPED learning centers in four districts
- Provision of SPED facilities

ISSUES & CONCERNs

PLANS/PROGRAMS/ ACTIVITIES

Diminishing moral cultural values of learners

- DepEd and DSWD to collaborate to come up with a program that promote family values
- Request barangay/council to formulate resolution/ordinance that promote family values

Silanga ES affected by PBB access road

Unavailability of capital outlay fund for ISO application

Cutting of classes/Absenteeism of pupils due to computer games

Learners without Birth Certificates

- Acquisition of new school site

- Request budget for benchmarking procurement of office furniture/equipment and ISO consultants

- Enforcement of City Ordinance on Regulating Computer Games

- Conduct on-the-spot inspection of Computer & Internet Cafe

- Seek assistance from Barangay Officials for registration of these learners
